

When Recorded Return To:
Remedial Project Manager, EPR-SR
Vasquez Boulevard and Interstate 70 Superfund Site
U.S. Environmental Protection Agency, Region 8
1595 Wynkoop Street, Denver, CO 80202

NOTICE OF ENVIRONMENTAL CONDITIONS

WHEREAS, Mr. Victor M. Desantiago and Ms. Evangelina Desantiago are the owner of record of the real property (referred to as "the Property") located at 4344 Steele, Denver, CO 80216, and more particularly described as follows:

L 5 & 6 BLK 27 TOWN OF SWANSEA

WHEREAS, **For purposes of indexing in the County Clerk and Recorder's office Grantor-Grantee index only, EPA shall be considered the Grantor, and Mr. Victor M. Desantiago and Ms. Evangelina Desantiago shall be considered the Grantee.** Nothing in this Notice shall be construed to create or transfer any right, title or interest in the Property.

WHEREAS, the Property is within the boundaries of Operable Unit 1 of the Vasquez Boulevard and Interstate 70 Superfund Site (Site), as described in the Record of Decision (ROD) signed by United States Environmental Protection Agency (EPA) on September 25, 2003. The ROD established cleanup objectives for lead and arsenic in residential soils to protect human health and prevent unacceptable exposures to adults and children.

WHEREAS, the EPA has prepared and recorded this Notice of Environmental Conditions ("Notice") to disclose specific environmental conditions of the Property to subsequent owners of the Property.

NOW, THEREFORE, NOTICE is hereby given that the EPA obtained soil samples from the Property, and those soil samples show levels of lead and/or arsenic contamination above health-based action levels.

The levels at which the EPA determined that lead and/or arsenic in soil in residential yards present an unacceptable risk (the so-called "action levels" in the ROD) are 400 parts per million (ppm) or greater for lead and 70 ppm or greater for arsenic. At the Property, the EPA's sampling of the surface soils found 130 ppm of lead and 148 ppm of arsenic.

As of the date of this Notice, the Property remains contaminated as the owner of the Property declined the EPA's offer to clean up the Property. The owner of the Property has been provided written notice of and the opportunity to comment on the Notice and the filing of this Notice by certified mail.

The records regarding sampling at the Property and other documents relevant to the Property and the Site, generally, may be requested from:
